

GABRIEL ADEWUNMI

AI Product Manager | Generative AI | Growth, B2C & SaaS Products

Essex, UK | +44 7394 210 841 | gabrielayobami60@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

AI Product Manager with 4+ years in product building and shipping Generative AI B2C and SaaS products at early-stage startups. Owns the roadmap at Kirro, an AI job search platform with 5,000+ users, driving decisions from behavioural data (Mixpanel, SQL, Metabase) and shipping improvements directly with Claude Code, contributing to a 40% increase in customer retention and a 25% lift in feature adoption. Works across the full product lifecycle, from LLM feature scoping, prompt design and evaluation through to go-to-market, with every AI release tied to clear OKRs and KPIs.

CORE SKILLS

AI & LLM: Generative AI Products, LLM Feature Scoping, Prompt Design, LLM Evaluation & Feedback Loops, AI Agents, AI-Assisted Building (Claude Code, Codex)

Product: Product Strategy & Roadmap, Full Product Lifecycle, Product Discovery & User Research, PRDs & User Stories, Backlog Prioritisation, Go-to-Market

Data & Delivery: OKRs & KPIs, Experimentation & A/B Testing, Product Analytics & SQL, Agile / Scrum, Stakeholder Management, Cross-Functional Leadership

PROFESSIONAL EXPERIENCE

Product Manager

Apr 2023 – Present

Kirro (AI Job Search Platform, 5,000+ users in 5+ countries) — Remote

- Own the product roadmap and a 15+ feature backlog across the full product lifecycle, from discovery to launch and go-to-market, including AI job matching and recommendation features.
- Platform results for users: ~16% interview rate vs a 2–3% industry average, 19.8 hours saved per user each month and 200+ jobs applied to per user each month.
- Build and ship fixes and product improvements directly using Claude Code, improving day-to-day user experience and contributing to a 40% increase in customer retention.
- Identified a key onboarding drop-off through Mixpanel funnel analysis and user feedback; redesigned the first-run flow around a single AI job-match moment and ran A/B tests that lifted feature adoption by 25%.
- Launched Kirro with a human-in-the-loop service: in-house application specialists applied to jobs on users' behalf while users prepared for interviews, rather than automating from day one. Grew from 50 to 150 users in 3 months and used what we learned to decide which steps to automate.
- Scope LLM-powered features, design and iterate prompts, and define evaluation criteria and feedback loops so AI output quality is measured before and after release.
- Set OKRs and KPIs with leadership so every AI release is judged on adoption and retention; lead Agile ceremonies for cross-functional engineering and design teams.

Product Manager (Contract)

Jan 2025 – Nov 2025

Ambassadors Word (church app: 3,000+ downloads, 1,800+ active users) — Remote, alongside Kirro

- Co-led end-to-end development of a mobile app covering authentication, events, donations and an AI-assisted support assistant, defining what the AI should handle and when to hand off to people.
- Authored PRDs, user flows and feature specs that reduced engineering handoff ambiguity and revision cycles.
- Prioritised the launch backlog against a fixed timeline, sequencing core flows ahead of enhancements so the app shipped on schedule.
- Ran product testing and user-feedback sessions to validate assumptions before release, and aligned product, engineering and operations stakeholders across time zones.

Product Operations & Customer Insights Analyst

May 2022 – Mar 2023

Creovantage — Remote

- Analysed user behaviour and market trends to surface insights that shaped product positioning and feature prioritisation.
- Translated qualitative customer feedback into structured product improvement recommendations adopted by the core product team.
- Bridged customer-facing teams and product squads to support feature development and optimisation cycles.

EDUCATION & CERTIFICATIONS

BSc Economics — Ekiti State University, Nigeria, 2021

Scrum Product Owner Accredited Certification — International Scrum Institute, 2026

Foundation AI Product Manager Certification — KairosLabs

Google Business Intelligence Certificate — Google
